

# Guitars

---

There are many kinds of guitars.

They include the acoustic and electric guitar.

In this presentation I will explore a few of them.

# Classical guitar

---

- Classical guitars do not have steel strings.
- They have nylon strings.
- Their sound is not as bright as the steel string acoustic.
- They are used in classical and other styles.

# Steel string acoustic guitar

---

- It has a brighter sound than the classical guitar.
- They are used in folk music among others.
- They have a larger body.

# 12 string guitar

---

- It has a much brighter sound than the 6 string guitar.
- The strings are paired.
- It is also used in folk music.
