

# ELECTRIC GUITARS

This is a presentation about them.

# YOU PLUG THEM IN AMPLIFIERS SO THEY CAN BE HEARD AT A DISTANCE.

Amplifiers are used to plug electric guitars in. They have controls and a speaker.

# FENDER STRATOCASTER

- It is one of the most popular electric guitars.
- It was invented in 1954 by Leo Fender.
- It is solid bodied and has a distinctive shape.
- Many famous musicians have used it such as Jimi Hendrix, Buddy Holly and Eric Clapton.

# GIBSON LES PAUL

- It is another popular electric guitar.
- It has been played by many famous artists such as the Rolling Stones and Eric Clapton.
- The first model was made in 1952.
- There are other variants called the Goldtop and Custom.

# IBANEZ J CUSTOM

- It is a Japanese electric guitar.
- It is a very advanced model.
- It is very modern.
- It is probably the best electric guitar in the history of Japan.
