

Ethan's presentation about McDonalds

The history of McDonalds

- Brothers Richard and Maurice McDonald founded McDonald's in San Bernardino, California, in 1940 as a hamburger stand.

The Golden Arches logo was introduced in 1953.

Today, McDonald's has more than 40,000 restaurant locations worldwide, with around one-quarter in the US.

McDonald's bestselling licensed items are their french fries and Big Mac hamburgers;^[20] other fare includes cheeseburgers, chicken, fish, fruit, and salads. McDonald's has been criticized for its foods' nutrition, animal welfare and low worker wages.
